

No-Call-List

I do not want you to allow the change to allow banks to call up to 18 months after I close an account. What I would like to see is that you would restrict Political supporters and politicians to use Recorded Phone Messages at election time. These are the most annoying of all the phone calls that I get. The biggest problem with them is the fact that I cannot discuss the issues with the political messenger in person. If any changes are made to the No-Call system, the recorded phone calls are the only one that should be made.
